Subject: Financial Support Request – Maintenance of “JAY HIND” Urban Forest – A Social Impact Project

Dear ,
Greetings from Kandivli Medical Association (KMA).

As part of our commitment to public health and community well-being, KMA has undertaken a unique environmental initiative – the **“JAY HIND” Urban Forest Project** at Goraswadi, Kandivali West. This 10,000 sq. ft. afforestation project, developed with the generous CSR support of Galaxy Surfactants Ltd., has already seen 5,000 saplings from 50 native species planted.

Within the next 2–3 years, these saplings will grow into a thriving green cover, creating a sustainable urban forest that:

- Improves air quality and reduces local pollution
- Lowers ambient temperatures and combats the urban heat island effect
- Attracts local fauna and strengthens biodiversity
- Enhances the quality of life for Kandivli residents

To ensure the success and sustainability of this initiative, ongoing maintenance is crucial. This includes watering, mulching, soil enrichment, protecting young saplings, and monitoring growth.

The annual requirement for maintaining the forest is ₹5,00,000.

We request and invite donations from esteemed citizens, individually or through their affiliates, NGOs, esteemed organizations and industries to partner with us through your individual or CSR contributions, which will directly support:

- Sustained growth and survival of planted saplings
- Creation of a green lung space in the heart of Mumbai

- A visible, long-term impact on community health and environment

All contributions are eligible for tax exemption under Section 80G of the Income Tax Act and can also be covered under the CSR provisions of the Companies Act, 2013.

To acknowledge and celebrate the generosity of our donors, KMA will provide due visibility both on our official website and at the 'JAY HIND' Urban Forest site. Donor organizations will also have the opportunity to 'adopt' earmarked plantation zones, symbolically nurturing them as part of their long-term CSR commitment. This not only strengthens community engagement but also highlights your organization's leadership in sustainable development.

Your support will not only nurture this urban forest but also stand as a testimony to your organization's commitment towards sustainability, social responsibility, and community health.

We would be happy to meet and present further details about the project and its impact.

Looking forward to your kind consideration and partnership.

Warm regards,

Dr. Saurabh Dani
